This session is meant to help you with goal setting and focuses on getting you comfortable and confident in the fitness area. They will help you determine a starting point for your fitness journey whether it be by personal training, attending a class or hitting the pool.

## TEEN ORIENTATIONS - FREE

Strength training offers many bonuses to young athletes and teens who want to enhance their fitness level. It can even help to put them on a lifelong path to better health and fitness. Our team of experts will provide a safe atmosphere where teens can learn appropriate strength training techniques and how to execute movements properly. Note: A parent/guardian must be there at the start.

Register for these on our portal under **FITNESS CENTRE & TRAINING PROGRAMS**.

## SWIM FOR LIFE® PRESCHOOL // Age: 3Y-5Y

The Preschool program gives children a head start on learning to swim. Preschool Programs develop fundamental physical literacy skills for aquatic activities. In our preschool program we work to ensure 3-5 year olds become comfortable in the water and have fun developing a foundation of water skills. We incorporate Lifesaving Society Water Smart® education in all Preschool levels.

### PRESCHOOL 1

Children become comfortable with their first independent water experiences. Preschoolers are introduced to entries/exits, safe movement in the water, submersion and breath control.

## INDOOR GROUP BRICK

The term "brick" refers to the strange sensation in the legs after riding hard on the bicycle. The ability to run after the cycling portion of a triathlon is a key element to having a successful race. This high-energy group training session is designed to build aerobic endurance and increase your ability to run quickly and comfortably off the bike. Our coaches have built a progressive training program that will challenge the athletes physically and mentally in preparation for race season.
